James Parker
Air Toxics Limited
180 Blue Ravine Road, Suite B
Folsom, CA 95630-4719

Dear Mr. Parker:

This correspondence addresses the recent evaluation of Air Toxics Limited of Folsom, CA by the U.S. Army Corps of Engineers (USACE) for chemical analysis in support of the USACE Hazardous, Toxic, and Radioactive Waste Program.

The USACE validates laboratories for ambient air parameters based on evaluation of laboratory documents and requested method Standard Operating Procedures (SOPs) and, to the extent available, performance evaluation (PE) analytical results. Your laboratory has submitted an acceptable LQMM and SOPs for the parameters requested.

Your laboratory is now validated for the parameter listed below:

METHOD	PARAMETERS	MATRIX
TO-3	Volatile Organics	Air
TO-14A/15	Volatile Organics	Air ⁽¹⁾

Remarks: 1) Compendium Method TO-14A/15 using evacuated canister and GC/MS analysis

Based on the submittal of acceptable SOPs, your laboratory will be validated for sample analysis by the methods listed above. The period of validation is 24 months and expires on September 3, 2006.

The USACE reserves the right to conduct additional laboratory inspections or to suspend validation status for any or all of the listed parameters if deemed necessary. It should be noted that your laboratory may not subcontract USACE analytical work to any other laboratory location without the approval of this office. This laboratory validation does not guarantee the delivery of any analytical samples from a USACE Contracting Officer Representative.

Any question or comments can be directed to Kevin Coats at (402) 697-2563. General questions regarding laboratory validation may be directed to the Laboratory Validation Coordinator at (402) 697-2574.

Sincerely,

for Marcia C. Davies, Ph.D.
Director, USACE Hazardous,
Toxic and Radioactive Waste
